Mike:

This is the latest draft of my response to Laura Duchnak's March 15 letter (also attached) where she proposed using RESRAD instead of the PRG calculator for risk calculations. I'm using my letter to flag some issues with switching to RESRAD (it could delay field work) and propose a meeting with her and her team, as well as the State folks, to discuss the RESRAD issue and a path forward on the Parcel G workplan and the 5 year review.

I'm also sharing this Draft with our HQs colleagues for their review. I'm trying to get this letter out by COB today.

Please let me know if you have any comments or concerns about the letter.

Enrique
